

Theoretical reconstruction: The names of the doctors are fictitious. This is how a patient information notice might appear in the future within the framework of the Single Health Insurance Fund. The content is based on an invoice issued by the City Hospital Zurich Triemli. This invoice did not amount to **CHF 82.50**, but to **CHF 532.40**.

Patient Information dated 23 October 2018

Dear Ms Bachmann,

The ophthalmology clinic of the "City Hospital Zurich Triemli" has transmitted the treatment data listed below. On this basis, we have calculated the resulting credit. In accordance with the legal requirements, we are [obliged to verify](#) with you that this information corresponds to your recollection.

Please read our message carefully. At the end of this message, click on the appropriate option and then, at the bottom right, on "Confirm here". Only after your confirmation can we process the reimbursement.

You will then automatically receive a PDF of this page at your registered email address.

Thank you very much for your cooperation!

This is nevertheless a huge difference compared with the Triemli invoice – for exactly the same service – as listed above! Just thinking about the THREE inhumane "sympathy surcharges" applied merely because my wife was over 75 years old still makes me feel sick!

Total cost: CHF 532.45

Treatment on Tuesday, 23 October 2018

Periodas / Artigels

05 Case number 45214-8723 Final examination and closing consultation "Cataract"
